User Experience Designer | Product Designer

M.F.A. candidate in User Experience Design at SCAD with experience designing consumer mobile apps and emerging-technology experiences across startup and sponsored innovation environments. Strong in interaction design, UI design, product thinking, prototyping, research, and cross-functional collaboration. Known for translating complex systems into intuitive, polished experiences across mobile apps, connected ecosystems, and interactive concepts.

Experience

User Experience Designer — *Jun 2025 - Present*

7WEST, Inc. — *Remote*

- Designed the end-to-end UI for a consumer-facing student ecosystem mobile app, shaping core journeys and interface patterns across the product.
- Created scalable user flows, information architecture, wireframes, and UI components in Figma to strengthen clarity, consistency, and navigation across core app experiences.
- Built high-fidelity prototypes and collaborated with product and engineering leadership to shape feature direction and refine the app experience through iterative design

User Experience Designer — *Mar 2026 – May 2026*

BMW x SCADpro — *Savannah, GA*

- Collaborating on AI-native automotive service experiences integrated into emerging AI platforms.
- Conducted secondary and primary research, including surveys, interviews, and observational studies, to understand user needs and future mobility/service behaviors.
- Developed user journeys, concepts, and prototypes to explore future-facing digital and service experiences across complex touchpoints.

User Experience Lead — *Sept 2025 - Nov 2025*

Kohler x SCADpro — *Savannah, GA*

- Led UX strategy and end-to-end experience design for Kohler's connected hydrotherapy ecosystem.
- Defined customer journeys, user flows, interface systems, and interaction concepts for connected wellness experiences across digital touchpoints.
- Conducted research and usability validation to inform product direction and presented concepts, prototypes, and design rationale to stakeholders and senior leadership.

Projects

SONIX | Autonomous Taxi Experience — *Jan 2025 - Mar 2025*

Rookie of the Year – Highly Commended | Finalist

- Conducted qualitative and quantitative UX research, including 15+ usability sessions, to identify adoption barriers in autonomous taxi experiences.
- Designed mobile and in-car interaction flows, UI components, wireframes, and responsive interfaces to improve clarity, trust, and usability.
- Iterated concepts through prototyping and testing to build confidence and strengthen the rider experience across a complex service ecosystem.

Sync | Smart Sensory Running Shoe — *Jan 2026 – Mar 2026*

- Designed a smart sensory running shoe concept that uses embedded pressure sensors and machine learning to help runners better understand and correct movement patterns in real time.
- Created a 3D heatmap visualization in p5.js and explored targeted haptic feedback to translate gait and foot-strike data into more intuitive, actionable feedback.
- Worked across sensing, feedback, and interface communication to prototype a connected experience that makes complex data easier to interpret.

Sea Love Candle Bar | E-Commerce Experience Redesign — *Mar 2025 - May 2025*

IDA 2025 Honorable Mention

- Redesigned a responsive e-commerce experience using UX research, card sorting, tree testing, and usability validation.
- Improved information architecture and streamlined booking and checkout journeys to support easier navigation and a clearer customer flow.

iMessage | A Relation Wellness Update — *Sept 2025 - Nov 2025*

6 Indigo Design Awards – Interface Design & Navigation, Apps, Digital Tools & Utilities, Social Impact categories

- Led interaction and visual design for a conceptual iMessage feature focused on more thoughtful wellness communication.
- Defined user flows, interface behaviors, and high-fidelity concepts to create a seamless and emotionally considerate messaging experience.

Education

M.F.A. in User Experience Design | GPA: 4.0 — *2024 - 2027*

Savannah College of Art and Design — *Savannah, GA, USA*

Bachelor of Architecture — *2019 - 2024*

School of Planning and Architecture — *Vijayawada, India*

Skills

Design: Product Design, UX/UI Design, Interaction Design, Visual Design, Wireframing, High-Fidelity Prototyping, Responsive Design.

Research & Testing: User Research, User Interviews, Usability Testing, Heuristic Evaluation, Card Sorting, Tree Testing.

System & Structure: Information Architecture, User Flows, Journey Mapping, Design Systems, UI Components, Accessibility.

Tools & Technology: Figma, Adobe Creative Suite, p5.js, HTML, CSS, JavaScript

AI & Builder Workflow: Cursor, Codex, Google Antigravity, Claude
